VOTE TODAY FOR FROSH, SOPH OFFICERS

Plans For Big Whiskerino Will Be Announced Today

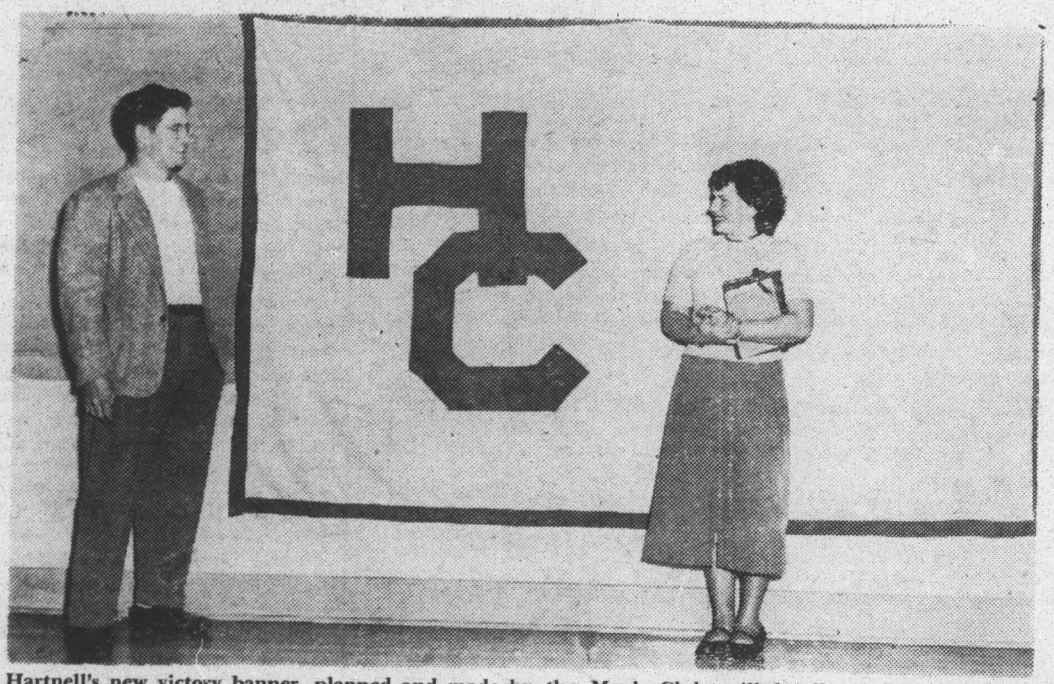

"Fuzz Contest", Field Day Events Are Being Planned

Attention, all men: unless you'd like to wallow in the mudhole like a prize pig, you'd better forget about shaving and start thinking about the length, color, and texture of that stubble. This is all leading up to, of course, the big, annual WHISKERINO. Plans concerning the details of the event are to be announced today by the Men's Club.

Tentative plans now call for many of the traditional events of the Whiskerino such as the mudhole, into which the men who do not try to raise a crop of fuzz or those who try and fail will be systematically and unceremoniously dumped; the vigilante committee, a group of obliging sophomores who lend their valuable talents to see that justice is carried out during the affair; and the Ribbonero, which finds the women of the college wearing ribbons in their hair in their own version of the Whiskerino.

Culmination of the fun comes on October 19, when the field day is held. At this time many contests will be held with teams of the freshman and sophomore classes participating. That evening the Men's Club supper and dance will be held. There are now on ice 300 pounds of chicken which will be served at the supper. Beard judging will be held at the supper, and prizes will be awarded to the winners in the various divisions.

So, men, now's the time to start. Let your razors alone and use your hair restorer. Who knows? You might be judged the grand champion in the wiriest beard class and take home a prize for your efforts.

Hartnell's new victory banner, planned and made by the Men's Club, will be flown from the flagpole every time a Hartnell team wins an intercollegiate contest. Shown with the banner are John Alsop, president of the Men's Club, and Janice Wilkinson, who assisted in making it.

Officers to be Elected Today; Assembly at 1

Hartnell students today will vote for candidates for freshmen and sophomore class officers, and the office of vice-president of the Men's Club.

A rally is scheduled for 1 o'clock today, followed by separate meetings of the Men's Club and U.G.C. At the men's meeting, plans for the Whiskerino, supper and field day will be discussed. According to Miss June Handley. Candidates for U.G.C. offices will be introduced at this afternoon's meeting, and plans for the year taken up. Election of U.G.C. officers is scheduled for the first part of the week.

Those who had filed petitions for candidacy by Wednesday afternoon were:

Freshman class: Darrel Millsop, president; Eldon Brewster, vice-president; Betty Parks, secretary-treasurer; Pat Pollock and Mary Lee Hubbard, freshman representative.

Sophomore class: Geordie Corbett and Don Keeney, president; Dolores Fosselman and Bill Casalegno, vice-president; Liz Keller, secretary.

U.G.C.: Barbara Johnson, president; Jackie Jury, treasurer-reporter; Phyllis Butters, secretary.

Colhecon Club Officers Meet

Officers-elect of the Colhecon Club met Thursday with their advisor, Miss Mildred Novotny, to plan for the club's first meeting of the fall semester.

Officers of the organization, which is open to students interested in home economics, are Evelyn Dutra, president; Betty Johnson, vice-president; and Elizabeth Anderson, secretary.

Dr. Kwoh Speaks At WSSF Assembly

Recently returned from China, where he has observed problems of Chinese students, Dr. Edwin Sih-ung Kwoh spoke to students at an assembly last Friday as a representative of the World Student Service Fund.

Doctor Kwoh, who is visiting this country for the second time, told students here he has noticed that there is a growing interest among American students in world affairs, and that they are "more intelligent than before." He feels, however, that too much emphasis is placed on the problems of Europe, and said, "What happens to China will be of importance to the whole world."

In Nanking, where he has visited the university, and at other Chinese colleges and universities, there is widespread student unrest, Doctor Kwoh said. Causes for low morale among students, he feels, are "physical insecurity," the disintegration of Chinese political and

(Continued on Page 3)

Former Students Again Attain High Average at Cal

Fifty-one former Hartnell students now attending the University of California attained a grade-point average of 1.36 for the first semester of last year, it was announced today by President John B. Lemos.

The exceptionally high average, which is between a "C" and "B" grade, is even higher than that made by former students of this college the previous year, President Lemos reported. That year, Hartnell stood at the top of the list scholastically compared with all other junior colleges in California.

Students whose averages were particularly high were:

"A"-minus average: Wilbur Stanley Bardin, Richard Riley Fleming, LeRoy Jack Gee; "B"-plus average: Mary Lou Anderson, Donald Miner, Stanley Scott; "B" average: Charley W. Davis, James McNeill, Robert Pia; "B"-minus average: Georgette Hendricks, Oscar Burke, Robert Carle, David Farrow, Roger Erickson, Frank Lee, Ronald Merring-

(Continued on Page 3)

College Now Has Victory Banner

Now ready and waiting to be flown from the flagpole is the new Hartnell College victory banner. The banner was planned and made by the Men's Club, with the assistance of Janice Wilkinson, and will be flown at half-mast each time a Hartnell team wins any intercollegiate contest.

The banner measures six by nine feet and bears a large "H C" in red on a yellow background. It is bordered with red.

The Men's Club is headed by John Alsop, and Mr. Richard Carlisle is the faculty advisor.

See Mr. Girdner About Employment

Students interested in full or part-time employment should file an application with Mr. Jerry Girdner in the main office as soon as possible. Employment is very scarce, he reports.

For further information about available employment, students should note the bulletin board opposite the main office and next to the entrance of the faculty room.

Hartnell A&M Wins Awards

The boys of Hartnell A. and M. were at it again. This time they took prizes and awards of all kinds at the Santa Cruz County Fair held at Watsonville last Thursday, Friday, Saturday, and Sunday. The boys took a total of more than $200 in prizes, ranging from first to fifth, for their sheep and hogs.

In addition to the aforementioned prizes, Bill Throgmorten, of A. and M., won awards for his poultry. Bill was also in charge of the exhibit bus which was shown there. John Reeves and Malcolm Toof were in charge of the stock display.

CAMPUSOLOGY

By BOB WHITE

Despite the efforts of Dr. Edward Mahler who performed an emergency Caesarian operation at Hartnell A. and M. Friday, September 16, the patient died. Fourteen offspring were born during the operation, three of whom died. News of the tragedy has been withheld from the father to prevent shock.

A "wet nurse" made of wood and equipped with coke bottles and nipples will be used to feed canned milk to the 11 remaining babies.

The now deceased mother, always a heavy eater, won second place in the Duroc sow class at the Monterey County fair this year.

Doctor Mahler is a doctor of veterinary surgery and it is the first operation of its type on record in the Salinas area. The "patient" was a Duroc sow.

Mr. Murrin was discussing hairdos in a very derogatory manner with some of the fellows one day last week. To show that Mr. Murrin's criticisms were unfounded, Wayne Ingols proudly assured everyone that "mine is a new Toni."

Ken Koenig, one of the lucky few who could attend the Hartnell-Muir game at Pasadena, reports that quite a few Pasadena City College students were on hand to root for the Panthers. Could this have been the result of a little mixup between Pasadena City and John Muir colleges the other day?

It happened like this:

Both colleges were having pep rallies Thursday a week ago. "City" students, feeling their spirits sufficiently rallied, formed a parade of cars and proceeded to John Muir College where they drove up and down honking horns and challenging Muir students to come out.

Several Muir students, thoroughly disgusted with the "City" folks' behavior, bought tomatoes and rotten oranges, went out to the parade and a "tomato battle" was started. Police finally stopped the ruckus but not before three girls were sent to the hospital with slight injuries and a patrolman was given a bath with a siphon bottle and splattered with tomatoes.

Watch out, fellas! Coach Ed Adams will be out for blood! He is local chairman of the Red Cross blood donor program, a very important and worthwhile cause. The mobile blood unit will be in Salinas October 3.

"Angel Street" First Drama Production

"Angel Street," suspense thriller that promises to keep the theatergoer on the edge of his seat, will be the first production of the college dramatic department. "Angel Street" will have three evening performances on October 27, 28, and 29.

Casting took place this week and the cast is now hard at work on its first production. The cast, as announced by Harold H. Ulrici, director, will have one character double-cast. Gloria Scroggs will interpret the role of Mrs. Manningham. Characterizing Mr. Manningham will be Don LoPresti. Double-cast in the part of Nancy are Jolene Brogden and Juledra Lewis. Elizabeth will be portrayed by Marguerite Sander. Richard Cimino will demonstrate his talents in the role of Rough.

The production staff consists of stage manager, Richard Rohrbacker; electrician, Dean Stanapopolous; wardrobe mistress, Gwen Hall; property chairman, Jacqueline Day; and prompter, Phyllis Williams.

Tickets for the production will go on sale next week. Student tickets, at 50 cents each, will be available at the main office. Adult reserved season tickets will be available at Gadsby's Music Company, Salinas, for the coming season and will cost $4 each.

Inter Club Council Organized Here

New interclub council, formed to co-ordinate activities of the various Hartnell clubs, met for the first time last week.

Dee Fosselman is president of the new organization, and Mr. Harold Ulrici will serve as advisor. According to Mr. Ulrici, all clubs are not yet represented on the council. Organizations will meet, he said, and elect a representative or the club's president to attend meetings, which will be held at least once a month.

Dolores Fosselman

The council plans to work with Mr. Jerry Girdner this semester on the "master calendar," to insure an equal distribution of activities among the various clubs.

Commission Holds Meeting

The student commission held a regular meeting last Tuesday at noon in the home economics living room.

The student government conference was discussed at length. Roy Taylor will be the only person to represent Hartnell at the coming regional conference held prior to the San Bernardino conference which will be October 27, 28, and 29.

It was moved and seconded that the commission have charge of all coming athletic exhibitions.

Bonnie Hearn was appointed to head an election committee to take care of arrangements for the elections this week.

Student of Hartnell, Karal King, now serves her country in the Waves. Congratulations to her, and good luck!

Wedding Bells Ring for Alumni

The months of June, July, and August found wedding bells ringing for a number of Hartnell students.

Richard Shirle, former Hartnell man, and Louise Aaron exchanged vows June 18. They are now living in Washington, D.C.

Joan Pedersen, graduate of Hartnell, and Harry Johnson, Jr., had an early June wedding. The two are now living in Salinas.

Martin Jefferson, enrolled here only a short while last year, and Dorothy Bayles were married August 21.

The last Sunday in June was the date when Celia Hansen and Edwin Lindquist became Mr. and Mrs.

Former student here, Leo James Cook, took Maria Muther as his bride early in August.

July 24 was the date Joy Towt and a Pacific Grove man, Charles Mornard, were married.

A Hartnell man, Charles Fisher, Jr., and Shirley Ables were married in Salinas early in August.

Also in July was the wedding of Ruth McDill and Robert Gross.

Betty Head, from Hartnell, and Alfred Wegner were teamed as Mr. and Mrs. just last August 25.

Also in August, Dorothy Ottone changed her name to Mrs. Michael Lerda.

Hartnell Alumnus Finds Home of Ancient Man

News of the discovery of a campsite of the most ancient man yet found in northcentral Arizona by a former Hartnell College student, Dick Shutler, has been received by Dr. Luella Hall, dean of the general college here, in a letter from Mr. Shutler. Enclosed in the letter was an article, telling of the discovery, which had appeared in the Arizona Daily Sun.

Mr. Shutler, together with another University of California graduate student, has spent the last nine weeks excavating from the Sedona area of the Verde Valley prior to the discovery. They had been working under the sponsorship of the Museum of Northern Arizona when the discovery was made.

The discovery had great value to the museum because of the age of the findings and also because of the rare implements found at the time.

In his letter Mr. Shutler told of the problems the men encountered before they were able to make their find. He now plans to return to the University of California to work towards his master's degree.

Flying Club Will Handle Concession

Hartnell Flying Club will handle the concessions at all the home games this year and Flying Club members can earn their flying time by working in the concessions, it was announced by Mr. Emil Ramos, club advisor.

All profits will go into the club treasury and by this means the club hopes to get itself into a good financial position. Members are speculating as to whether the club will be able to buy a newer and larger plane than the present Piper Cub.

According to Mr. Ramos, a "very conservative" estimate of concession profits last year averaged about $100 per game. Hartnell will have five "home" football games this year plus a number of basketball games.

The Flying Club still has a number of openings for new members. The maximum number will be 25 until sometime in the future when the club can buy another plane.

Persons interested in joining the club may contact members or Mr. Ramos in Room 15.

College Cafeteria Is Non-Profit Business

Still the meeting place of all the campus card sharks, the cafeteria is now in business again for the year. Perhaps no other spot on the campus has quite the same touch of home away from home as does the cafeteria. Here is service with a smile and, if you can break away from the coke crowd, a well-balanced meal. At reasonable prices, too, WE say with a smile. According to the head woman, Mrs. Effie Freyer, this is possible because the cafeteria is a nonprofit organization. If too much money is being taken in, the prices will go lower— whereas if they start losing money, prices must, of necessity, be raised.

Also, Mrs. Freyer passes the word along to enjoy yourselves there and feel at ease. Only thing to remember is to clear your dishes off the table when you are through. But then maybe you've noticed the little signs on the tables already.

There is only one new face in the cafeteria this year. Meet Gladys Jones. The others back with us again are Winnie Burton, cook; Betty Whited, Eunice Hunley, and Ruby Clark. Also check some of the interesting faces of the students who also serve.

We could go on, but we're busy drooling over that roast turkey we had the other day.

DR. KWOH . . .

(Continued From Page 1)

economic systems, Communism, low salaries paid to teachers, and strikes inspired by Communist students.

Doctor Kwoh then gave a brief history of the W.S.S.F., and emphasized that it is an educational as well as a relief organization. The organization, he said, has established a tuberculosis sanitarium in Greece, sent books to Germany, and participated in a variety of other relief activities throughout the world.

No chairman has as yet been appointed to head the fund-raising drive at Hartnell, but it is expected that the commission will name one soon.

Westminster Club To Meet Soon

Although the Westminster Club has not met yet, some program plans have been made for the coming year.

A social and discussion club for all Protestant students, the club will meet as soon as a list has been compiled from office records giving the students' religious preference. Then invitation cards will go out to students on this list.

Feature of the semester's activities will be meetings held by Methodist, Presbyterian, and Baptist students. Also, a motion picture from the Moody Science Institute will be shown at some future date.

Ski Activities Being Charted

Hartnell Ski Club is starting activities early this year. Already they are getting the club organized. The Ski Club is one of the most active organizations in the college and each winter several trips are taken.

Usually the season opens about the last part of December, in Christmas vacation with the first trip to Yosemite. Then members return to Badger Pass the week end after finals, the last of January. This year they expect to make at least one trip to the Sugar Bowl, or to Donner Pass.

All members of the student body are invited to participate in the activities. Members of the club pay very reasonable fees but then save money by getting cut rates and not having to pay a down payment on any equipment rented at Badger Pass.

CAL AVERAGE . . .

(Continued From Page 1)

ton, Audrey Mawdsley, LeRoy Riordan, Phyllis Smith, Rosemary Wong, Andrew Spooner, and James Van Vorhis.

Other students averaged grades of "C" or better.

Cassady Attends N.C.J.C.A. Meeting

Mr. Henry Cassady, dean of the lower division and president of the Northern California Junior College Association, attended the California State Junior College Association meeting at Santa Barbara Saturday and Sunday.

The executive committee meeting included the presidents of the northern, central, and southern junior college associations and important junior college business was discussed.

Newman Club Will Elect New Officers

First meeting of the year for the Newman Club will be held at noon Tuesday, October 4, in Room 7. At this time, election of officers will be held, and organizational plans for the term will be made.

Miss Eleanor Perry, advisor to the group, invites all students interested in Catholic activities to attend.

AT PENNEY'S

Panthers Ragged, Muir Passes to Easy Win

Last Friday evening in the Rose Bowl, Hartnell's Panthers played ragged and somewhat spiritless football and lost to John Muir College by a 19-0 score. The Panthers, as the score would indicate, were not handed a humiliating defeat. They fought until the final whistle, but they suf-fered from several small ailments that sometimes plague a team at this time in the season.

The Panthers fumbled more than they should have, and a majority of these fumbles were recovered by the Muir Mustangs. Hartnell also was plagued by a loose pass defense which allowed the Mustangs their first two touchdowns. Another weakness that didn't help the Panther cause was a general lack of protection for the passer.

The Mustangs' first touchdown came midway in the first period when Lowell Paul, Muir left end, got behind the Hartnell defenses and caught the first pass of the game for a Mustang touchdown. Muir failed to convert and the quarter ended 6-0 for Muir.

Early in the second quarter, Muir again scored through the air-lanes to put the Mustangs farther in front of the hard-pressed Panthers. Late in the second period, the Hartnell gridders marched 70 yards to the Mustang 5 where their drive was cut short of its mark by a 15-yard penalty.

The Panthers, after receiving the second-half kickoff, marched again into the scoring zone of the Mustangs but a fumble and a Muir recovery nullified the efforts. Later, in the fourth period, the Mustangs scored after moving down from the Hartnell 40, and the game ended with John Muir in possession of the ball on the midfield stripe.

Bill Walker, Panther halfback, was the outstanding runner on the field and came very close to breaking away for a touchdown several times in the course of the game. Bill Whited and Ed Dysle played excellent defensive football even though both had minor injuries.

With a week to iron out their "small ailments" the Panthers should be ready for the Bakersfield College Renegades tonight at Bakersfield.

Cagers Slate Fall Drills; Schedule Is Rough

Coach Ed Adams is off to a quick start this year with some basketball candidates starting to condition themselves last week. Coach Adams usually emphasizes the fast break which takes a team in good physical condition to last an entire game.

The team has to be ready for the opening game of the season on November 25, which is as yet an open spot. After that the schedule is fast and furious, lasting until February 22 with breaks few and far between. A few teams that Hartnell will meet are Armstrong Business College, Skagit Valley (Washington) J.C., Porterville J.C., and Westmont College of Santa Barbara.

It is possible that the Panthers may participate in the Cow Palace Tournament the last of December. The last two games are the traditional ones against Monterey Peninsula College which Hartnell won last year, 75-55, 69-37.

Lettermen who are returning to the halls of Hartnell are Ed Macha, Don Keeney, Wally Wong, and Bob Chavarria, a veteran of two years ago.

Other aspirants, mostly from high school, turned out for the "hoopsters." Undoubtedly others shall show up before long. To name a few: Bill Conlan, Jim Tannehill, Fred Willson, Johnny Wong, Bill Bell, Ray Kusumoto, Ken Meeker, Herb Withers, John Withers, Bob Dragoo, Doug Bird, John Skow, and Charles Jackson.

BAKERSFIELD TONIGHT; PANTHERS READY

Hartnell's second game will be against Bakersfield College tonight at Bakersfield. Last year the Renegades were Hartnell's opener. To everyone's surprise a highly vaunted Bakersfield eleven was completely demobilized by a tall, lanky fellow named Ed Brown, who literally filled the air with footballs. They returned to the San Joaquin Valley a defeated team — 36-6. Other than that initial defeat they had a very successful season.

This year they are in about the same boat with Hartnell, a lot of enthusiasm, but comparatively little experience. The teams will meet, both with one game behind them.

Hartnell's offense should have more polish by this week end, while the backfield will have sharpened its pass defense. If the Renegades can be kept on the ground, the strong Panther line will do the rest.

All-American Ed Dysle has been named game captain for tonight's contest in Bakersfield.

The team is in fairly good condition for the encounter, and the players are pointing for this game. It will likely be a rough meeting, for Bakersfield usually fields an excellent team, and neither eleven can very well afford a loss at this stage of the game.

This year Bakersfield has their usual fast backfield with a fast-charging line that packs plenty of beef. The only thing that Hartnell lacked last week was an effective and experienced pass defense, and the ability to hang onto the ball. So, if Hartnell rounds into shape as is expected, they will be able to match Bakersfield in everything but number of reserves.

Game captain for the Panthers will be Ed Dysle who played a terrific game at guard in the Rose Bowl last week. Ed, a member of last year's team, received the "most valuable player" award, was placed on the first team of the N.C.J.C.C. All-Conference team and on the first string of All-American J.C. team.

Ed, wearing number 22 for the second year, hails from Santa Cruz, and graduated from that high school in 1945. It was in that year that he made All-C.C.A.L.—at fullback. He then went to Nevada and played first string frosh football there. In 1948 he enrolled at Hartnell for his second year of college.

Dysle now tips the scales at 205, stretches up to 5 feet 8 inches, and is 21 years old. Few footballers have the natural playing instinct that Ed does — hence his success.

The students who were at Pasadena to cheer the team were thoroughly appreciated by the football squad. They would like to have as many as possible behind them at the future games because it really makes a difference to the players to know that the students are behind them.

Men's Club May Purchase Bikes

The Men's Club, under direction of Mr. Richard Carlisle, has been entertaining the idea of purchasing several bicycles for Hartnell College, so that students can ride to town between classes.

The bicycles are to be owned by the Men's Club, which hopes to get two men's and two women's bicycles.

Due to the fact that funds are limited, they are looking for old bicycles that can be fixed up, so they can obtain them through donations or purchases at a reasonable price.

There will be a rental fee of 10 cents an hour to defray the cost of repair and upkeep on the vehicles.
